Jas. Botts and Lillie Hymer, married Nov. 14, have just made the fact known at Louisville.

President John A. Marquis, of Coe College, Cedar Rapids, Ia., was elected moderator of the general assembly of the Presbyterian church in the U. S. A., in session at Atlantic City, N. J.

The Knights Templar, in their conclave at Frankfort elected John R. Yeager, of Danville, Grand Captain of the Guard, from which office it is customary to progress through the chairs. The conclave chose Covington for the meeting next year.

The order of withdrawal sent to the Sibley-Langhorne expeditionary column Wednesday has been countermanded and the American troops that invaded Mexico in search of Glenn Springs bandits will remain there indefinitely. This column probably will be reinforced by troops from Gen. Pershing's army.

Father Bernard Vaughan, a noted Jesuit and pastor of one of the most fashionable parishes in London, said: "The cradle is empty and the church bench is empty. The church bench is empty because the cradle is empty. When I was a lad the birth rate was 37.40; today we have dropped to 19.5 per thousand. We are a nation traveling to the cemetery."

Ambassador Page at London cabled the state department Friday night that the sentence of Jeremiah C. C. Lynch, the naturalized American convicted of complicity in the Dublin uprising had not been confirmed, but that in accordance with instructions from Secretary Lansing, the British government had been asked to suspend the infliction of any punishment pending an investigation.

The Presbyterian churches in the United States, the Southern branch of the denomination, elected the Rev. C. W. Grafton, of Mississippi, the organization's oldest pastor in point of continuous service, as moderator for the coming year, at Orlando, Fla. He has been assigned for forty-three years to a country circuit, including the Union and Bensalem churches in Mississippi, and his selection resulted from a movement to give greater recognition to country pastors.

Seven new names appear on the roll of bishops of the Methodist Episcopal church as the result of elections at Saratoga, N. Y. They are: Matt S. Hughes of Pasadena, Cal., William F. Oldham of New York, Dr. Franklin Hamilton of Washington, D. C., and Charles B. Mitchell of Chicago, Thomas Nicholson of New York, Herbert Welch of Delaware, Ohio, and Adna W. Leonard of Seattle, Wash. Of the four bishops chosen two are pastors, one a college president and one is an official of a church board. Two are brothers, Bishop Edwin H. Hughes and Dr. Matt S. Hughes.

Ruined by Women.

An Atchison man has been ruined by women; not actresses and chorus girls, but by his wife and daughters. His wife has an "artistic" temperament, and to this day takes painting and music lessons. One daughter, according to her mother, has a "voice." The man pays for training it. Another daughter paints china. The man pays for her lessons. Another daughter wants to become a violinist, and the man is putting up. He has never had a wholesome meal since his marriage. He is in debt, old, thin and a failure. There is another combination in which women ruin men, besides the historical one of "wine, women and song."—Atchison Globe.

WHAT'S THE REASON?

Many Hopkinsville People in Poor Health Without Knowing the Cause.

There are scores of people who drag out a miserable existence without realizing the cause of their suffering. Day after day they are racked with backache and headache; suffer from nervousness, dizziness, weakness, languor and depression. Perhaps the kidneys have fallen behind in their work of filtering the blood and that may be the root of the trouble. Look to your kidneys—assist them in their work—give them the help they need. You can use no more highly recommended remedy than Doan's Kidney Pills.

Below is grateful testimony from a sufferer in this locality.

W. O. Freeman, railroad engineer, Cadiz, Ky., says: "My kidneys were weak for a long time, causing backache and severe pains in my sides. Seeing Doan's Kidney Pills highly recommended by local people, I got a box and used them as directed. In a short time I was cured and now I seldom have any cause for complaint."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Freeman had. Foster-Milburn Co., Props., Buffalo, N. Y.

Ominous Phrase in Persia.

The expression "to give a cup of coffee" has in Persia a somewhat ominous significance, due to the fact that the coffee cup is a recognized medium for conveying poison. Some years ago the governor of Aspadana, having long been at daggers drawn with the chief of a powerful mountain tribe, determined in this way to put an end to all trouble. He professed to entertain a great degree of friendship and esteem for the chieftain and invited him to visit him at his palace. The chief unsuspectingly came accompanied by his two young sons. For a week they were royally entertained. But at last one morning when the chief came into his host's presence he was coldly received, and an attendant soon stepped forward with a single cup of coffee in his hand, which he offered to the guest. The latter could not fail to understand that he was doomed. Preferring, however, steel to poison, he declined the cup and was thereupon, at a signal from his host, stabbed to death.

What is Happiness?

The aim of human life, no doubt, is happiness. But, after all, what is happiness? Efficiency, wealth, material comfort? Many by their lives do so affirm; few are cynical enough to say so; and on their deathbeds none will feel so. Not even freedom in itself brings happiness. Happiness lies in breadth of heart. And breadth of heart is that inward freedom which has the power to understand, feel with, and, if need be, help others. In breadth of heart are founded justice, love, sacrifice; without it there would be no special meaning to any of our efforts, and the tale of all human life would be still no more than that of supremely gifted animals, many of whose communities are highly efficient, and have instinctive unity founded on experience of its utility, but none of that conscious altruism which is without perception of future benefit to self, and works from sheer recognition of its own beauty.—Galsworthy, in Atlantic.

Terrible Train Of Troubles.

Lake Charles, La.—Mrs. E. Fournier, 516 Kirby street, says: "The month before I took Cardui, I could hardly walk. Since taking Cardui, I have no more pains, can walk as far as I want to and feel good all the time." Midnight Sun.

The phenomenon known as "the midnight sun" is literally the shining of the sun at midnight, which takes place within the arctic circle at and near midsummer. At that time the sun skirts the horizon without dipping below it. The further north one goes, the greater the number of days on which one finds the "midnight sun" visible. The cause of the phenomenon is, briefly, the inclination of the earth's axis to the ecliptic. For the elevation of the pole at any given spot is equal to the latitude of that spot; and the sun's polar distance on a midsummer day being 66½ degrees, it will follow that in the latitude 66½ degrees the sun will barely graze the horizon. North of that latitude the midnight sun is observed for some days about midsummer time, and at the North Cape, latitude 73½ degrees, the midnight sun is visible from May 12 to July 29.

Dangers of Draft.

Drafts feel best when we are hot and perspiring, just when they are most dangerous and the result is Neuralgia, Stiff Neck, Sore Muscles or sometimes an attack of Rheumatism. In such cases apply Sloan's Liniment. It stimulates circulation to the sore and painful part. The blood flows freely and in a short time the stiffness and pain leaves. Those suffering from Neuralgia or Neuralgic Headache will find one or two applications of Sloan's Liniment will give grateful relief. The agonizing pain gives way to a tingling sensation of comfort and warmth and quiet rest and sleep is possible! Good for Neuritis too. Price 25c. at your Druggist.—Advertisement.

Love That Wins.

IMBECILES DO GOOD WORK

Experiment Draws Favorable Comment From a Leading New York Newspaper.

Charles Bernstein, superintendent of the State Custodial Asylum for the Feeble-Minded at Rome, N. Y., last year rounded up 25 of the higher-grade imbecile boys and men and sent them up into the Adirondacks for a month of summer camping. The commissioner of conservation at Albany rounded up 150,000 young evergreens and shipped them to a railway siding near the boys' camp. George Kuehn, a scout master, got the trees and the boys together in a spirit of outdoor competitive play.

In just four weeks these 25 feeble-minded wards of the state set out 150,000 young trees on 150 acres of deforested state land at a total cost of \$400. The work was worth \$1,000 to the state as it stood, and the commissioner of conservation called it just as well done as though civilian labor had been given the job.

These wards were turned from liabilities into assets in an experiment that could be duplicated this summer on a large scale. Politicians handicapped such work whenever it is tried, and they almost prevented this pioneering will go on until the public awakens to its big significance as a partial solution for one of the grave and growing problems of our social economy.—New York Mail.

LAST ZULU ELEPHANT DIES

Was the Sole Survivor of Immense Herd That Once Roamed Native Forests.

There is not a single elephant left in Zululand, once a paradise of these great animals. The last survivor was found dead the other day on the banks of the Unbolzi river, where he had lived since the early part of the reign of the great chief, Cetewayo.

An immense herd once roamed the Dugugugu forest and along the Unfolozi, but it was diminished by incessant hunting, until Cetewayo one day finally drove it away forever. The chief used to make medicine of certain portions of their bodies. On the occasion referred to he organized a mighty drive in which two elephants were killed and many wounded. One of the latter turned and trampled one of his pursuers to pulp. It was this animal which was captured and whose death is now reported.

The remainder of the herd broke away, and thereafter none was seen in Zululand.
